Launch of Transco's Station 65 Pool on 12/15/08

We are pleased to announce our next location will be **Transco's Station 65 Pool**. Cleared services for this location are scheduled to commence on **December 15, 2008**.

Cleared physicals provide an opportunity to obtain the best absolute price with the expansion of counterparties under fully anonymous trade cycles, all with the confidence of secured credit facilities. In addition, all transactions are firm and nominations are netted prior to scheduling, thus minimizing operational concerns. Cleared physicals represent a compelling value in today's credit constrained markets.

For existing NGX Clients, additional information will be forthcoming that will enable you to leverage cleared services. For new clients, please contact us at the below referenced numbers in order to initiate your services by the launch date.

Please do not hesitate to contact your NGX Marketing representative for further information: Ken Skaer (210) 277-8666, Curt Lizzi (403) 974-1725, the NGX U.S. office at (281) 720-0525, or marketing@ngx.com.
